

MADE IN WALES

DMM has proudly manufactured high quality climbing hardware in North Wales since 1981. Over that time, we've established a reputation for innovation and high standards of quality control.

Key to that reputation is the fact that all safety critical processes from design through to manufacture, assembly and testing, are carried out at our site in Llanberis.

We greatly value the close relationship we've built-up with grass roots activists around the world in providing valuable feedback for product development.

In this workbook, you'll find details of our 2020 climbing range with highlighted new additions and updated products. We're particularly excited to be adding Halfnuts to the line-up and confident they'll become a must-have addition to any trad rack. These single wire nuts (size 1–7) are ideal for shallow placements and 38% lighter than the equivalent size Wallnut set. Also, new to the range we have the Shadow HMS, our new general purpose rigging carabiner and the Short Haul, a compact version of the popular Flight bag.

climb now work later

Team DMM

Manufacturing high-quality climbing equipment since 1981

Dragonfly Micro Cams

Versatile micro cam protection for narrow cracks, pin scars and small pockets. The size 1 Dragonfly is our smallest certified climbing cam. The range covers placements from 7.8 to 28.3mm and they all feature an extendable sling and TripleGrip lobes.

Dragon Cams

A state of the art cam. The single stem, double axle design with a 13.75° camming angle and TripleGrip lobes make the most of every placement. The range covers placements from 14mm-195mm and they all feature an extendable sling; saving quickdraws.

Halfnuts

New

Single wire lightweight nuts that increase your protection options. Halfnuts excel in shallow placements, pin scars and situations where every gram counts.

- 38% lighter than equivalent size Wallnut 1-7 set.
- Reduced width gives more stability in shallow placements.
- Unique shape creates additional placement opportunities.
- Same reliable profile as classic Wallnuts.

Wallnuts

Wallnuts are the backbone of a trad climbing rack. The tapered faces and sides provide secure placement options. Scoops aid stability and reduce

> HB Alloy Offsets

Versatile nuts with an offset taper that allows them to protect flared and irregular

Torque Nuts

Lightweight protection with an extendable Dynatec sling to help reduce rope drag. The camming action of the nut is ideal for protecting wider and parallel sided cracks.

Wired Torque Nuts

Lightweight protection for wider and parallel sided cracks. Like our Torque Nuts they can be used in several orientations. Easier to control placing above your head. Great in winter.

Micro Wallnuts

Straight sided micro-nuts that offer security in small placements.

Peenuts

Offset micro-nuts that effectively protect small flared cracks and peg scars.

) IMP Brass Nuts

Straight sided brass micro-nuts that protect small cracks.

) HB Brass Offsets

Brass micro-nuts with an offset taper suitable for protecting small flared cracks.

8 2020 DMM WORKBOOK 2020

Alpha Trad

An ergonomic full size wire gate carabiner with a clean nose and wide gate opening for easy clipping.

MAJOR AXIS: 24kN WEIGHT: 35a

Chimera

A lightweight clean nose carabiner that strikes the balance between weight, usability, and function.

MAJOR AXIS: 23kN WEIGHT: 30a

Spectre

A classic all-round carabiner suitable for trad, sport and winter climbing.

MAJOR AXIS: 24kN WEIGHT: 33g

> Phantom

Weighing just 28g, the Phantom is the ultimate lightweight carabiner.

Alpha Sport Straight

An ergonomic sport climbing carabiner that gives confident handling, easy clipping, and durability for working routes.

MAJOR AXIS: 24kN WEIGHT: 46g

Alpha Sport Bent

The ergonomic Alpha shape with a hot-forged, curved gate for smooth clipping on the rope end of a sport guickdraw.

MAJOR AXIS: 24kN WEIGHT: 47g

> Shadow Straight

A lightweight sport carabiner that is still tough enough to withstand working routes. Also ideal for climbers who occasionally trad climb.

MAJOR AXIS: 24kN WEIGHT: 42g

> Shadow Bent

A lightweight and clean nose sport carabiner for the rope clipping end of a quickdraw.

MAJOR AXIS: 24kN WEIGHT: 43g

PerfectO Straight

A compact, true oval carabiner that maintains ease of use and is suitable for racking gear.

MAJOR AXIS: 24kN WEIGHT: 50g

> Revolver

The innovative combination of a pulley wheel in a carabiner for reducing rope drag. It can also be used in an improvised hauling system.

MAJOR AXIS: 24kN WEIGHT: 51g

2020

XSRE

A fully featured miniature carabiner that can be used for any non-safety critical use that comes to mind.

MAJOR AXIS: 4kN WEIGHT: 8g

> Chimera Colour Pack

Pack of five colour Chimera carabiners.

> Phantom Colour Pack

Alpha Trad Colour Pack

Pack of five colour Alpha Trad carabiners.

Pack of five colour Phantom carabiners.

Spectre Colour Pack

Pack of five colour Spectre carabiners.

) PerfectO Rack Pack

Pack of four colour PerfectO carabiners.

DMM WORKBOOK DMM WORKBOOK

Alpha Trad

An ergonomic full size wire gate quickdraw with a clean nose and wide gate opening for easy clipping.

11mm Dynatec 12cm, 18cm, 25cm

Chimera

A lightweight clean nose quickdraw that strikes the balance between weight, usability, and functionality. Also available on 60cm sling as an alpine quickdraw.

11mm Dynatec 12cm, 18cm, 25cm, 60cm

Spectre

A classic all-round quickdraw that is suitable for trad, sport or winter climbing.

11mm Dynatec 12cm, 18cm, 25cm

> Phantom

Weighing just 65g, the Phantom is the ultimate lightweight quickdraw. Also available on 60cm sling as an alpine quickdraw.

11mm Dynatec 12cm, 18cm, 25cm, 60cm

Alpha Sport

(Updated)

An ergonomic sport climbing quickdraw that gives confident handling, easy clipping, and durability for working routes.

Nylon vari-width 12cm, 18cm, 25cm

> Shadow

Updated draw that is still

A lightweight sport quickdraw that is still tough enough to withstand working routes. Ideal for redpointing and onsighting.

Nylon vari-width 12cm, 18cm, 25cm

Shadow/Spectre Hybrid

A Shadow/Spectre hybrid on a vari-width quickdraw for long sport routes when weight saving is at a premium.

Nylon vari-width 12cm, 18cm, 25cm

Shadow HMS

New

A large, yet lightweight, HMS biner with a short gate to maximise gate opening. The deep and wide top basket can take three clove hitches (<9.5mm rope).

) Phantom HMS

A compact, lightweight carabiner ideally suited for belaying and rigging.

MAJOR AXIS: 25kN WEIGHT: 56g

) 30kN Boa

An oversized 30kN rigging biner that is ideally suited to anchor management.

iD option available

MAJOR AXIS: 30kN WEIGHT: 95g

> Rhino

The Rhino gives confident control with modern belay devices. The signature horn prevents devices from rotating to the spine of the carabiner.

MAJOR AXIS: 27kN WEIGHT: 72g

Ceros

The Ceros features an internal wiregate to correctly align the carabiner on the belay loop; minimising the chance of crossloading. The horn prevents devices from rotating to the spine of the carabiner.

iD option available

MAJOR AXIS: 25kN WEIGHT: 86g

Belay Master

A belay carabiner with a nylon clip that prevents cross-loading and ensures the gate is closed and locked.

MAJOR AXIS: 25kN WEIGHT: 93g

> Shadow

A mid-size multipurpose locking carabiner.

MAJOR AXIS: 24kN WEIGHT: 50g

> Phantom

A lightweight locking carabiner that helps minimise rack weight.

MAJOR AXIS: 24kN WEIGHT: 42q

) Ultra O

A very stable locking carabiner that gives predictable loading and allows attachments to sit centrally.

iD option available

MAJOR AXIS: 25kN Weight: 67g

> PerfectO

A compact, true oval carabiner that is easy to use one-handed. It provides effective centring of loads.

MAJOR AXIS: 24kN WEIGHT: 60g

> Aero

A durable entry level carabiner.

MAJOR AXIS: 25kN WEIGHT: 60g

> Revolver

A locking carabiner with an integrated pulley wheel that reduces friction and rope drag. It can be used in lightweight hauling systems.

MAJOR AXIS: 24kN WEIGHT: 63g

24 2020 DMM WORKBOOK 2020

Pivot

A versatile, high performance belay device. The Pivot's shackle reduces the force needed to initiate lowering, increasing control when lowering one or two seconds in guide mode.

Pivot/Phantom HMS Belay Set

A compact and lightweight technical belay set.

Mantis

) Beetle

at the gym.

A very lightweight belay device that inspires confident belaying. It is suitable for all round climbing with single, half, or twin ropes.

A classic tube style belay device for belaying, lowering, and abseiling.

Equally at home on the crag as it is

Mantis/Ceros Belay Set

Minimise the risk of cross-loading using the Ceros on your belay loop, together with the holding power of the Mantis.

> Beetle/Shadow HMS Belay Set

The perfect belay set for beginners that is suited to making the transition from indoors to outdoors.

Deadman

The Deadman offers protection when snow is the only option.

> Bulldog & Terrier

Versatile drive-in pieces of winter protection that can create secure placements in frozen turf and thin cracks.

Freedom Leash

Tethers that give the freedom of climbing leashless, but stop you losing your axe if you drop it.

> Slide Lock Leash

Intuitive to use and operable with one hand featuring a minimalist design for improved functionality and durability.

Grippy Grip Tape

Grippy Grip Tape in three metre rolls is perfect for providing extra grip when using the upper hand rest and provides extra insulation.

Vault

A robust aluminium racking carabiner that keeps valuable ice screws safe and secure, and allows efficient selection of the correct length.

MBS: 3kN WEIGHT: 63g Non-PPE

Chalk

> Chalk Ball

Chalk balls keep chalk contained, and are sized to give your hands a good covering with just one squeeze.

Chalk Tub

100g of pure magnesium carbonate in a reusable container.

Crushed Chalk Bag

The Crushed Chalk bag contains 250g of pure magnesium carbonate, enough for the biggest boulder bucket.

Liquid Chalk

Liquid chalk forms a dry layer on your skin, keeping your hands dry on routes and boulder problems.

Finger Tape

Low stretch finger tape for injury support, and taping flappers and cuts.

T-shirts

All of our T-shirts meet the Global Organic Textile Standard (GOTS) that ensure organic status of textiles, from harvesting of the raw materials, through environmentally and socially responsible manufacturing. Made from 100% combed organic cotton they are also certified to carry Carbon Reduction and Fair Wear Foundation (FWF) labels. The carbon footprint is reduced by 90% in comparison to an identical product manufactured using conventional energy sources.

Men's DMM T-shirt

'Climb Now Work Later' wear a splash of inspiration on the back of your t-shirt with this strapline underneath our logo.

Women's DMM T-shirt

Wear a 'Climb Now Work Later' splash of inspiration on the back of your t-shirt with this strapline underneath our logo. The women's tee features a slim fit.

Men's Pass T-shirt

This classic landscape tee is inspired by the location of our factory below Snowdon and next to Lake Padarn.

> Women's Pass T-shirt

This classic landscape tee is inspired by the location of our hardware manufacturing base by the edge of Lake Padarn. The women's Pass tee features an open neck and casual fit.

Men's Torque T-shirt

The Torque tee takes its cue from a piece of classic trad climbing hardware.

> Women's Torque T-shirt

The Torque tee takes its cue from a piece of classic trad climbing hardware. The women's Torque tee features an open neck and casual fit.

Men's Pick T-shirt

Look sharp with our classic fit, pickscape tee. The print uses the iconic outline of DMM ice picks.

> Kids' DMM T-shirt

A classic kid's t-shirt featuring a twist on our logo with 'Climb Now Homework Later' beneath it on the back. Available for ages from 3 - 12 years.

Customer Services

Our Customer Service team is here to help our distributors, retailers and end users with any queries relating to our products and service.

The team have a wide knowledge of production, retail, industry and recreational use of our products. We have completed PPE inspection courses to provide advice and inspect returned products. We pride ourselves by answering any enquiry quickly and concisely.

Our goal is to help you with any queries relating to product, sales, delivery, use, repair, service, inspection and warranty.

If you have any questions/queries about a DMM product or wish to talk to the Customer Services team please email us at cs@dmmwales.com or call +44 (0) 1286 872 222.

We take great pride in our products and strive to produce impeccable goods. However, if a product does not perform to your satisfaction please email cs@dmmwales.com with the following:

- A brief explanation
- Serial number of the product
- Date and place of purchase (with a copy of the receipt)
- Pictures of the product
- Your preferred email, address and telephone number.

We will reply with the appropriate course of action.

Regular inspection and servicing of your kit is essential as this will highlight any possible problems (see the product user instruction leaflet for more information). In the event of finding a fault, damage, or if you are unsure about a product you should stop using it immediately and contact us at cs@dmmwales.com.

Full details about inspection and maintenance of all DMM products are included in the user instructions supplied with every product, these can also be found on the relevant product pages on our website. We highly recommend that our customers read these instructions and adhere to the recommendations set out in them.

Returns

When goods are returned to us we will carry out a full investigation through our quality system and inform you of the outcome.

To return goods for inspection please see dmmclimbing.com/ About/Returns-Servicing-Repairs or email us at returns@dmmwales.com for further instruction.

All returned cases are individually investigated and overseen by our group quality assurance manager. We work with our worldwide distributors and retailers to handle this process quickly and efficiently.

Servicing, Repairs and Re-slinging

We offer servicing for DMM Cams and will re-sling Torque Nuts if they pass a safety inspection.

Prior to sending them to us, we ask you to inspect and assess your gear in accordance to the supplied user instructions and inspection criteria. These are also available as PDF's on the product pages of our website. If you feel that your gear has more service to give, please go to dmmclimbing.com/About/Returns-Servicing-Repairs for further information.

NB. We endeavour to carry out this service ASAP but during busy times this may take up to four weeks. Please allow plenty of time for this service and plan well in advance of your next climbing trip.

All DMM Cams & Torque Nuts can now be reslung in North America

We are very pleased to have a 'Partner in Climb' in the USA.

Mountain Tools in California will re-sling any DMM Cams or Torque Nuts. Their service page has the full details: mtntools. com/cat/rclimb/cams/mt_camresling.htm.

Mountain Tools offer a re-sling service only. They will not perform a safety inspection on the product. If you are in any doubt of the integrity of your DMM products you should stop using it immediately, ask a competent person to check them or contact us for advice at cs@dmmwales.com.

Quality

BS EN ISO 9001:2015 Quality Assurance Management System

The quality management system maintained by DMM is registered to BS EN ISO 9001:2015 quality management system requirements. The main aim of this system is reflected in our mission statement:

"Together each one of us will make a better, safer product for our customers"

Our system has evolved and continues to evolve as a result of nearly 30 years of development, investment and improvement to all of our activities. 'Quality' both actual and perceived is our number one objective, reflecting the fact that each and every day thousands of people around the world rely on DMM products to save their lives. Our system is audited and supervised by SGS (UK) Ltd and other independent third party auditors (e.g. customers and potential customers, trading standards and other regulatory bodies) at regular intervals to ensure continuing compliance to the requirements of BS EN ISO 9001:2015, and as part of our commitment to continuous improvement.

CE Marking and Product Conformance

The CE marking process is known as 'type examination' and is an important supplement to our quality management system. In line with the requirements of European Union Personal Protective Equipment [PPE] Directive/Regulation, all products designed and manufactured by DMM which are classified as PPE are independently type examined and tested to the relevant European Standard for Mountaineering and/or Industrial Fall Arrest. Only after meeting the requirements of the PPE Directive/Regulation and the relevant European standard are we allowed to place the "CE" mark on our products. [the "CE" mark] on our products. Type examination and CE marking is a legal requirement in Europe for all height safety PPE whether for industrial or leisure use.

BS EN ISO 9001:2015 compliance and CE marking/product conformance are monitored by CEN [Committee for European Normalisation] Notified Body SGS. It is also a legal requirement that we maintain our quality management system as part of the PPE Directive/Regulation 'CE' marking process.

In addition, many DMM products also conform to other non-European standards (for example ANSI and CAN/CSA for North American conformance). More information about these products can be found on our web site or by enquiring directly to our sales team.

3-Sigma Testing

This is our system for setting and monitoring the strength ratings as marked on our products, in-line with the minimum requirements of the relevant European and other standards, the '3 Sigma Testing' method. DMM were the first company in our industry to use this Statistical Quality Control [SQC] technique. Using test data derived from samples tested to destruction at the design stage we can set the strength rating of the product. We then have a system of ongoing batch testing which monitors and ensures that the rated strength is maintained and actually exceeded.

Part of our philosophy at DMM is to continue to improve the breaking strength of our products in excess of the standards which may be required. We do this to lessen the chance of failure in situations and conditions which might not be reflected in the standard but which we know as climbers ourselves can cause product failure.

UIAA Safety Labels

The UIAA (Union of International Alpinists Associations) is a body which promotes the safety and interests of all parties involved in mountaineering and related activities worldwide. The UIAA publish standards for mountaineering equipment which supplement the requirements of the corresponding European standards mentioned above.

Investor in People

DMM were the first manufacturing company in Wales to be registered to the Investor in People [IIP] standard [July 1992] and in September 2016 we achieved the prestigious *Gold Award*. This standard is people orientated and its main objectives are: [a] to develop strategies to improve the performance of the organisation through its people; [b] to ensure that the organisation takes action in order to improve its performance through its people; and [c] to evaluate the impact of this investment in people on the performance of the organisation. IIP is more than just a training system. The IIP system is a key mechanism that helps us to target areas for improvement in all aspects of the business.

Responsible Manufacturing

DMM manufactures equipment used for climbing and working at height. Manufacturing these products has an effect on the environment. Conscious of this, we are are taking positive steps towards reducing our impact whilst improving the quality of life and well-being of our employees.

What we are doing:

- DMM hardware is made in our factory here in Wales, UK.
 This allows us to keep our supply chains as short as possible and support the local economy.
- By manufacturing high quality, durable products, we maximise the product lifespan. With careful maintenance, some of our products can potentially last more than a lifetime.
- Our iD system extends the life span of equipment by tracking the life and use of individual products even after serial numbers have worn off.
- Recycling all waste metal from our production process.
- Processing the water used in the rumbling process creating filtered clean water that goes to the local waste water treatment plant to be made safe for household consumption.

- Our packaging is undergoing a redesign, changing over to more environmentally and sustainable materials.
- Using EarthPositive organic clothing in our range, and supporting carbon reduction and the Fair Wear Foundation.
- Offering cam reslinging and servicing to extend their life.
- Encouraging repurposing of your old equipment through our Instagram retired gear campaign.
- Making continual improvements to the working environments at DMM.
- DMM is an Investors in People Gold Award company.
