

STAL ANCHORS

Premium climbing wall anchors

Stal Anchors are high quality climbing wall anchors you can trust. Every unit is built in the UK and individually proof loaded as part of our commitment to quality assurance.

We believe that all climbing wall users should have total confidence in their safety system, which is why the Stal anchor design incorporates a truly independent and equalised system using the finest quality materials. Stal anchors have been independently tested to ensure BS EN conformity and can be fitted to virtually any climbing wall.

CONFIGURATIONS

› PSTP Bottom Rope Anchor
